Genre: Documentary

Logline

In a shattered economy people are looking for a way to rise above the situation through education and employment, but when they still can't make ends meet people need a solution. Thankfully our community has resources available.

Act I

Establishing the available resources through introduction to the people who volunteer at each place and showing the location.

Act II

Allowing people to tell the story of what they do and how it all works while showing the story in action.

Act III

Informing the public on how they can either receive help or what they can do to help.
